I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all that apply)

☐ by reason of a defective specification or drawing.

☒ by reason of the patentee claiming more or less than he had the right to claim in the patent.

☐ by reason of other errors.

At least one error upon which reissue is based is described as follows:

US Letters Patent No. 5,793,779, failed to include a combination of features including a diameter less than 140 mm, without a recital of a particular thickness, in combination with providing a table of contents (TOL), and a track pitch in the range between 0.646  $\mu$ m and 1.05  $\mu$ m as recited in allowed Claims 65-66.

A second error upon which reissue is based is that original Claims 1-64 failed to cover more or less than the inventor had a right to claim in the patent. New Claims 65-66 address the first error, and new Claims 65-72 address both errors.

All errors corrected in this reissue application arose without any deceptive intention on the part of the applicant.

I hereby appoint the following attorney(s) and/or agent(s) to prosecute this application and transact all business in the Patent and Trademark Office connected herewith:
